STATEMENT

NUG urges for G7 member countries to deliver on its commitment made last year

26 June 2022

The forthcoming meeting of the G7 group of countries in Germany provides an important opportunity to update the commitments made last year to the people of Myanmar.

When they met in 2021, the G7 condemned the illegal coup, the arbitrary arrest of innocent people, and the violence committed by the junta's forces. They committed themselves to the support of all those who are working to create a stable and inclusive democracy, and to unfettered humanitarian access to vulnerable and displaced populations.

Further to this, the G7 made a common commitment to pursuing "additional measures" should those prove necessary.

One year on from the G7 meeting in the United Kingdom, the violence of the military continues against innocent civilians. The same military is denying humanitarian access to those in need. Grievous abuses of human rights have taken place. Increasingly, junta forces are using hunger as a weapon of war against whole populations.

The National Unity Government urges all the member countries of the G7, and those invited to attend, to take seriously the humanitarian and economic catastrophe caused by this coup. It is causing immense suffering.

G7 countries have the power to impose additional sanctions so as to limit further the flows of foreign funds to the junta.

G7 countries must also stem the flow of arms from Russia and other countries that are enabling the military to continue their murderous campaign.

The National Unity Government and the people of Myanmar are looking to the G7 to deliver on its commitment to additional measures, and to support us in our struggle for freedom.

(1) When they met in 2021, the G7 member countries condemned the illegal coup, the arbitrary arrest of innocent people, and the violence committed by the junta's forces. Member states committed themselves to the support of all those who are working to create a stable and inclusive democracy, and to unfettered access to humanitarian aid for vulnerable and displaced populations, and further made a common commitment to

pursuing "additional measures" if necessary.

One year on from the meeting, the violence of the military continues against innocent civilians. The National Unity Government (NUG) therefore urges all G7 member states, and those countries invited to attend, to act on the humanitarian and economic catastrophe caused by the coup.

The Welfare And Lives Of Those Who Have Been Taken Hostage By The Military Are In Grave Danger

The NUG announced on the 29th of June that all the political leaders, activists, protesters, and dissenters, up to and including the president and state counsellor arrested by military are being held as hostages. The world must understand that their welfare and their lives are in grave danger.

This is an act recognised as criminal insurrection against the government under the article 6 of the criminal code. In light of this, and their many other crimes and abuses, the CRPH declared the military council a terrorist organisation.
